

RURAL VS METRO HOSPITALS

Help us to identify barriers and enablers to delivering stroke rehabilitation in rural and metropolitan hospitals as part of our honours research.

We are seeking health professionals to take part in our 20 minute survey who

- *have worked for longer than 6 months in stroke rehabilitation*
- *work in rural or metropolitan hospitals in Western Australia*

We are also looking to conduct follow up phone interviews

Use this QR code to access our information sheet/ survey:
